# CDM Forum Update

Kevin Kuelbs  
CDM Forum Chair

# Agenda

- Introductions
- Feedback
- MDC CDM Track
- What is CDM?
- Brief History of the Initiative
- 2010 Progress
- Goals for 2011
- Getting Involved
- Contact Information

# Introductions

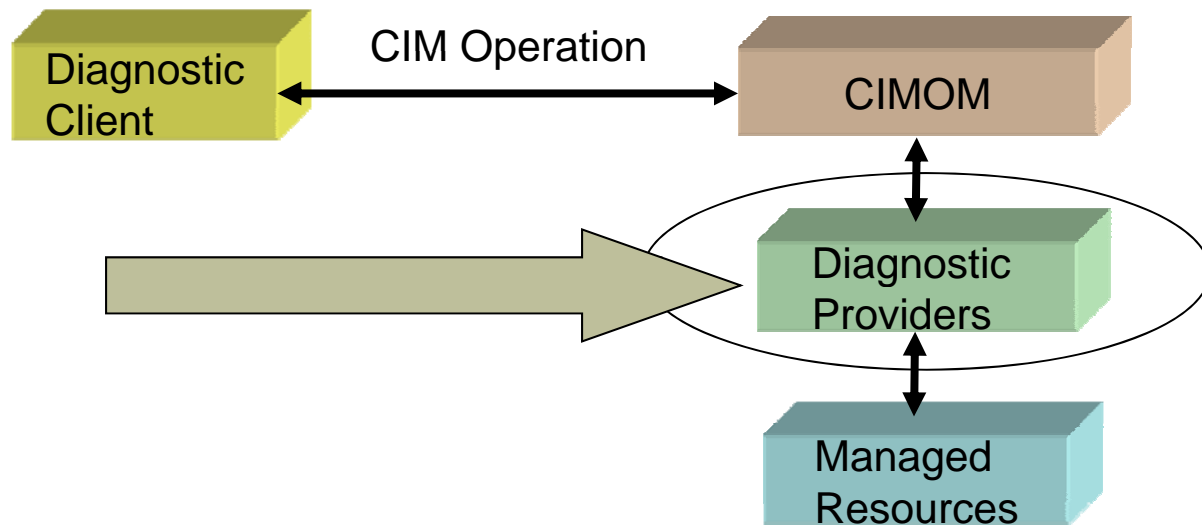

- CDM Forum chartered to unite industry on a **standard** diagnostics interface using CIM and WBEM technologies
- Participation and recognition industry-wide

## MDC CDM Track

- 8:30-9:20 – CDM Forum Update
- 9:30-10:20 – CDM Conformance Program
- 10:40-11:30 – CDM Commodity Profiles Intro
- 11:40-12:30 – CDM v2.0 Profile Advanced
- 1:30-2:20 – CDM Commodity Profiles Advanced
- 2:30-3:20 – CDM Birds of a Feather
- 3:40-4:30 – CDM Demo (in Showcase area)

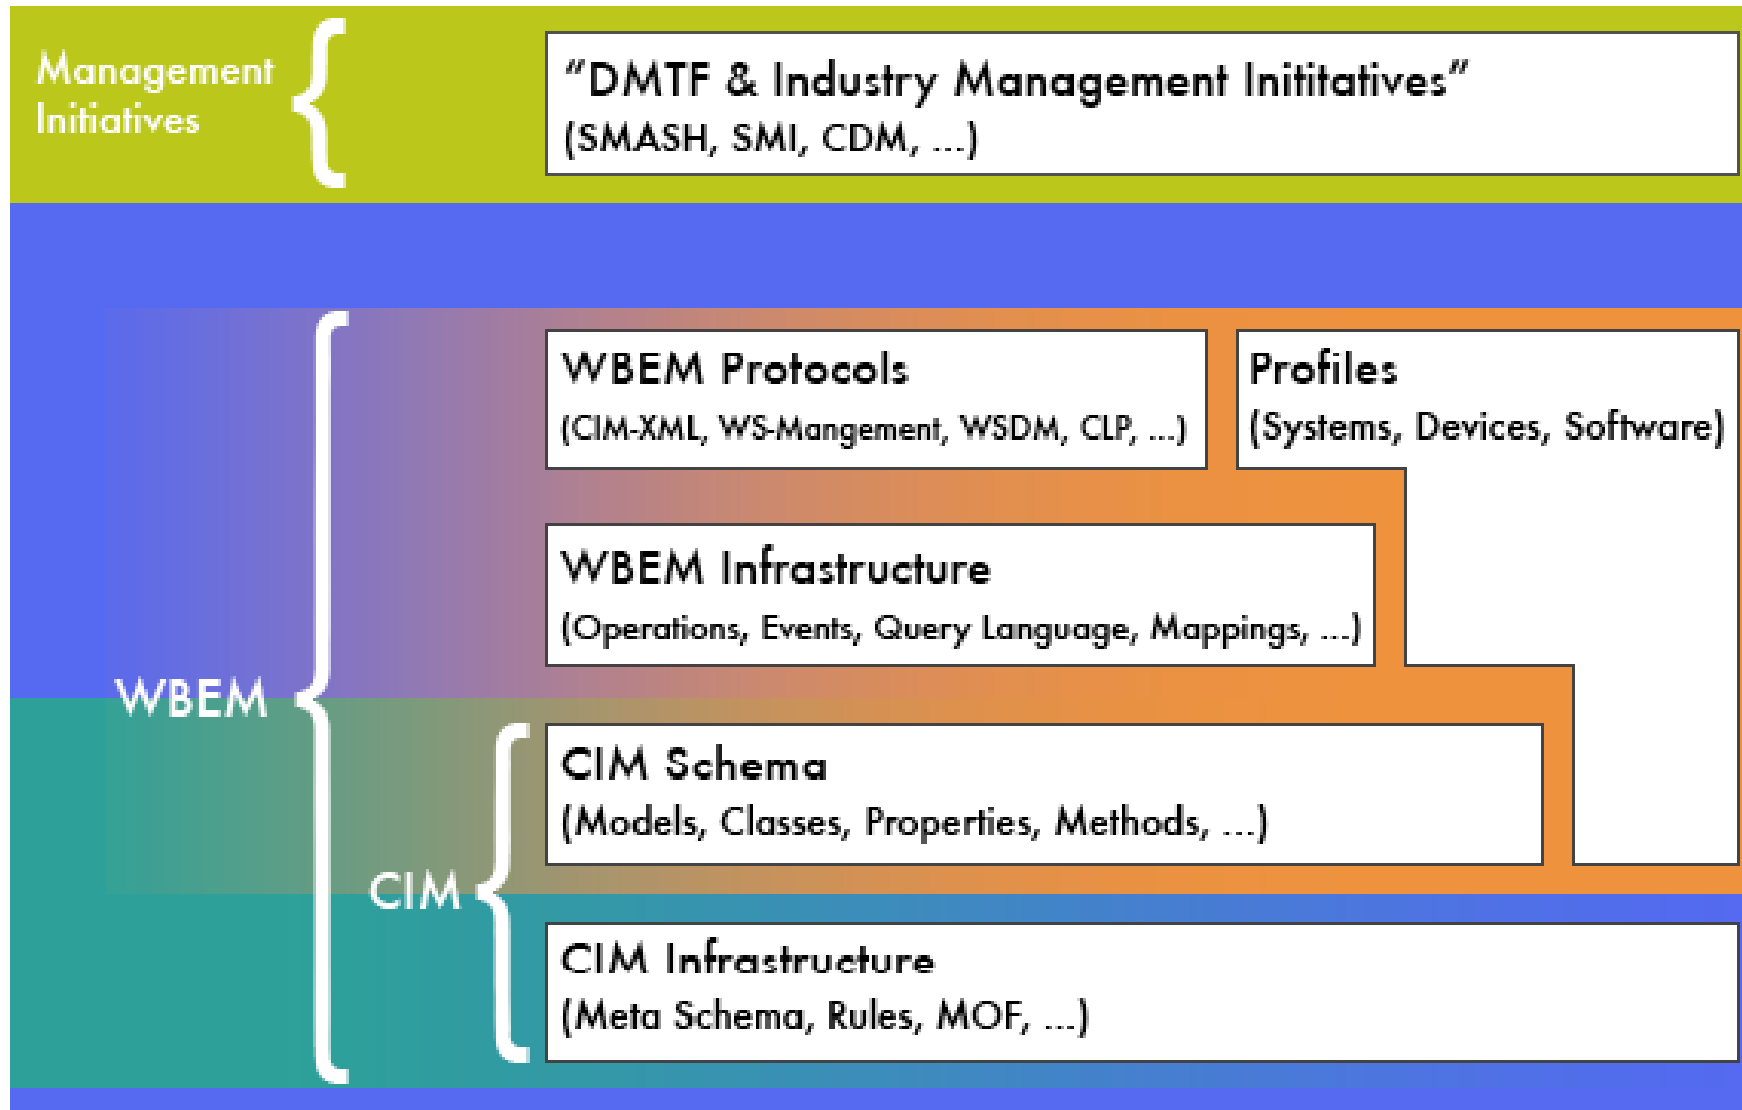

# What is CDM?

An industry standard diagnostics interface enabling seamless integration of diagnostic services into system management frameworks that is Platform and OS independent:

- *discover, configure and execute diagnostic tests*
- *view progress and control test execution*
- *view and manage test execution results*

# DMTF Technologies

# CDM Initiative History

- Published CDM 1.0 and Wrapper Specification
- Developed Conformance Program from ground up
  - Including flexible Conformance Test Suite
- Kicked off Commodity Profile Development

## 2010 Progress

- Conformance Test Suite Finalized
- Conformance Program Launched
- Certification Registry
- CDM 2.0 Published
- Commodity Profiles
- Plugfests

## 2011 Goals

- Grow participation, engage industry experts
- Deliver additional Commodity Profiles and features in CDM
- Expand Conformance Program
- Grow relationships with other standards – DASH, SMASH, SNIA, etc.

# Get Involved!

- The best way to get onboard is to participate
- Dues promotion currently running until Dec 31<sup>st</sup>
- Ask questions: [cdm-forum-chair@dmtof.org](mailto:cdm-forum-chair@dmtof.org)
